

The Pacific Commercial Advertiser

Issued Every Morning, Except
Sunday, by the

HAWAIIAN GAZETTE COMPANY

At No. 218 Merchant Street.

WALLACE R. FARRINGTON, EDITOR.

WEDNESDAY, JANUARY 23, 1895.

THE thorough demonstration of the stability of the Republic is already bearing fruit on the other Islands of the country. A private letter received yesterday from Kau states that Judge Waipulani and Deputy Sheriff Yates have been securing signatures and administering the oath of allegiance to natives. They have already secured 160 new supporters, the majority of whom affirm that they will come to Honolulu and carry guns if necessary.

WHEN Minister Hatch left Honolulu his mission to the Coast was to communicate with Minister Thurston; arriving at San Francisco, the newspapers say he is looking up capital for a trans-Pacific cable, all of which goes to show that foreign representatives do not necessarily tell all they know. Minister Hatch is now, as he always has been, putting in a peg here and a peg there, wherever he sees an opening, to lift Hawaii from isolation into the bright light of closer union with the United States.

JOHN BURNS, M. P., labor leader and critic, has brought showers of condemnation upon his head from the people of Chicago for calling that city "a pocket edition of hell." The art institute, police and fire departments are the only redeeming features he can find in the whole community. Mr. Burns has the following to say of the United States in general: "Schools splendid, libraries excellent, jails too good, roads bad, streets worse, drainage the same, art museums good for the age of the country, corporations exacting, tyrannical and extravagant; railway traveling palatial for the rich, and better than any I have ever seen for the poor; cut off the headlines of your newspapers and you have a good carcass left, but still too much of a journalistic slaughter house; municipal life considerably below that of any in Europe." Whatever is said of John Burns, no American has the least ground for supposing he is one inclined to mince matters when it comes to an expression of opinion.

HEROIC EDUCATION NECESSARY.

The recent rebellion shows full well that the average Hawaiian, and many who have been blessed with greater advantages for learning the customs of the world, are sadly in need of education on the subject of good government, and more especially as such government is related to the Hawaiian Islands. What wonder is it that with Hawaii's history of biennial revolutions and conspiracies that the general impression should get abroad that tampering with the established Government is a source of amusement that may be taken up when all other resources fail to bring malcontents into prominence? When Mark Twain was in the country he characterized the monarchy as a toy kingdom, and it must be admitted that his statement was not far from a true picture. Men have taken up arms against the Government—committed treason—and after a few months of police surveillance have walked the streets free to repeat their foolish actions if such a move suited their fancy. These men have been nothing more or less than living evidence that Hawaii has its own peculiar methods—methods unknown to sister nations—of treating with internal enemies of the Government. Young men and boys have grown up and become citizens in this atmosphere. How little has there

been to instill in their minds a reverence for the dignity of the controlling powers.

It is high time such methods came to an end, and the Government is now in the position to do it. We believe it will be done, but as the previous methods have been lax, so much greater is the necessity of heroic treatment, that young and old may never again have reason to question the dignity and high position occupied by the organization of officials that shape our nation's course. We want no dignity that is expressed in gold lace, crown, jewels and high sounding titles, but rather a deep, underground, inborn stateliness, that gives to every citizen an unspoken and firm understanding that over and above all the doings of this people is a high and mighty power, given by the people, sustained by the people, and which in turn cannot be opposed or its overthrow attempted as a mere pastime of some brain-cracked politician.

The men of today have a task of no mean proportion on their hands. Today and now such action must be taken as will inspire an unquestioned respect for the powers that be. As we have stated before, this nation has passed the time when boy's play can be countenanced in any way, shape or manner. Firm, aggressive, decisive action toward treasonable movements is the only key to the only door that leads to the emancipation from a reputation for biennial uprisings. Educate the neglected, misled minds to an accurate knowledge of national dignity and honor.

Auction Sales.

James F. Morgan.

SAKI AT AUCTION!

Timely Topics

January 21, 1894.

What the people are after today and all the time is labor-saving machinery. It does not make any difference what the line of business is labor-saving machinery is sought after. Men whose minds take an inventive turn put the energies in this direction more than any other, the manufacturers demand it and the inventors are trying to fill the demand. We have among our goods probably a hundred different articles designed for this purpose. Among the most important of these are the implements used in the cultivation of sugar cane land. Take first the Fertilizer Distributor, a machine worked by one man that will distribute the fertilizer over nine acres of land in one day. It not only saves labor but it does the work more thoroughly and with absolutely no waste of material. Our orders for this article have exceeded the demand and we have been obliged to order more. The Cane Cultivators from the same factory are recognized on Hawaii to be much superior to anything of the kind ever used here. These implements are not experiments, they have been used for a long time in Louisiana where they have given great satisfaction.

The Wertheim Duplex Sewing machine is more of a labor saver than any other make, because it does a greater variety of work. Every lady knows the trouble it is to sew ruffles, and that a machine that will sew just what is necessary for ruffles is not the stitch that answers for making boys trousers. It's a labor saver that will sew both and the Wertheim is the only one that will. It not only sews the chain and lock stitch, but it makes a combination of both that is as pretty an embroidery stitch as you want to see. We have a number of these machines in various styles of finish, the highest priced one is cheaper than you can get an ordinary machine for. You save money and save labor in getting a Wertheim.

These occasional rains cause havoc with the water by making it muddy and impure. We have been selling the Improved Stone Filter which makes it as clear as a crystal. There is another and very celebrated filter called the "Pasteur." We have made arrangements for handling this article which is exclusively used in public institutions, places of business and private houses in the United States. One of them has been placed in the Queen's Hospital and after a careful test in filtering muddy water milk and oil combined, Dr. Wood, the celebrated surgeon of Honolulu says:

"I have examined the 'Pasteur Filter' manufactured by the Pasteur Chamberland Company. I consider it the most efficient filter I have ever seen."

These filters are rented to persons or sold outright as preferred. Parties desiring to examine one can communicate with us and Mr. H. L. Theron will call upon them at their residence or place of business and thoroughly explain the working of it. We expect a large business in this article and from testimonials we have examined we have no hesitation in guaranteeing it to be a superior article.

Our stock of hanging lamps for people who do not use electric lights (as well as those who do) is as complete as anyone to be found in Honolulu. Our island trade in this respect is so large that we are obliged to keep our stock up in order to supply it.

There are a great many homes having zinc-lined bath tubs that are in good condition with this one exception: they lack the features of a porcelain lining. How to overcome this without going to the expense of getting a new tub, has been a question that has worried a great many.

One pot of our WHITE ENAMEL PAINT will do the work, forming as it does a GLOSSY SURFACE, almost equal in hardness and durability to that of porcelain itself, being at the same time hardly distinguishable from porcelain.

Consult your physician and he will tell you by all means to paint your bath tub with Enamel Paint.

The KEYSTONE EGG BEATERS are little gems. Try one if you want your eggs quickly and thoroughly beaten.

We also call your special attention to our economical BARREL and CYLINDER CHURNS, they are easy workers, have all sizes and prices.

We have a handy CLOTHES DRIER, having ten arms made to fasten on the wall, when not in use by a simple pull these arms fold up like a fan, thus taking up but little room.

Remember we sell Standard Oil Co.'s PEARL OIL at \$1.80 per case, C. O. D., delivered to any part of the city free.

Was It
A Dream?

No, for my awakening was a stern reality. Yes, I entered McINERNY'S SHOE STORE yesterday and bought a pair of

HATHWAY, SOULE

— AND —

HARRINGTON'S

WAUKENPRAST

Shoes

FOR \$5.00

I could scarcely believe my own eyes, and this morning I bought another pair for I believe in laying in a stock when such inducements as this is offered.

The old idea that
Consumption

is hereditary and incurable is now known to be a mistake. Scientists have proved beyond a doubt that consumption is contagious, but that there is danger of contracting the disease only when the system is in such a run-down condition that it is unable to resist the germs.

Angier's
Petroleum
Emulsion

is an antiseptic Food-Medicine that will do more than any other remedy to prevent and cure consumption. It is far superior to cod liver oil and is much pleasanter to take.
